Satellite Director  
Kids Against Hunger

Kids Against Hunger® is a 501 (c) 3 nonprofit humanitarian food aid organization with the mission to significantly reduce the number of undernourished children around the corner in the United States and starving children around the world. Our fully nutritious meals are financed entirely by donations, packaged by volunteers and delivered to those in need with the help of local and worldwide partners.

- Every six seconds, a child dies of hunger related causes. (Source: 2009 United Nations World Food Programme)
- There are over 12 million hungry children in the USA (Source: feedingamerica.org)
- World Hunger has reached the 1 billion mark, that is one in six people worldwide (United Nations' food officials estimate 2009)
- There is no lack of food in the world---just lack of funds to get the food to those in need.
- Your change has the power to make change.
- For as little as 23 cents a day, you can feed one child a fully nutritious meal.
- You can feed a child for an entire year for \$84---that's just \$7 a month.
- The Kids Against Hunger® meal was specifically formulated with food scientists from General Mills, Pillsbury, Cargill and ADM to meet the optimal nutritional requirements for a child according to the United Nations World Food Programme. It took 3 years to perfect.
- This rice-soy based casserole style meal is fortified with 21 vitamins and minerals in addition to all 9 of the essential amino acids required for complete nutrition.
- The meals are easily prepared on site by mixing with boiling water and cooking for 20 minutes.
- Volunteers set up food packaging satellites in the USA where "kids" of all ages come together to package the ingredients for the Kids Against Hunger® meals.
- Through partnerships with humanitarian organizations worldwide and the United States Navy, Kids Against Hunger® has delivered its meals to starving children and their families in more than 60 countries.
- The Kids Against Hunger® network currently includes over 80 food packaging satellites across the United States. These satellites donate a portion of the meals they package to food shelves in their area.
- Founded by Richard Proudfit, a Minnesota businessman, who has dedicated his life to feeding the starving children of the world.

*"When you feed a child, you feed our future."*™

*Richard Proudfit  
Founder of Kids Against Hunger*
